# HILL'S EVERGREENS

Wholesale Catalog  
Fall 1950

Dundee, Ill.

*Cover Illustration*

*Abies Koreana*

*It is felt to be of interest to most nurserymen, that the illustrations appearing in this list have been taken from a collection of books privately printed and published in England many years ago. The vast program of British Colonial Expansion of that period which sent representatives to all parts of the empire to collect specimens of plant material, samples of minerals and complete compilations of natural resource statistics, was responsible for the printing of these volumes. While most of the illustrations were made from photographs, there are many exquisite drawings, obviously made at the scene of the discovery.*

# D. HILL NURSERY CO.

**Evergreen Specialists – Largest Growers in America**

**DUNDEE, ILLINOIS**

*This list cancels all previous Editions*

## **Terms and Information**

### **TERMS OF PAYMENT**

**Discount Plan** Where cash is required in full payment of Fall orders by September 15th, and on Spring orders by March 15th, a 3% discount will be allowed.

**Open Account** Goods will be supplied open account to customers of approved credit who supply satisfactory trade and bank references. Time must be allowed for investigation. Terms are 2% 10 days, net 30 days.

**C.O.D. Orders** All C.O.D. orders must be accompanied with a one-third down payment.

**Note** When retail customers are sent to the sales yard to buy on a wholesale account, they must have either a letter or purchase order from the firm sending them. The discount on sales of this kind is 25% off the retail.

### **SHIPPING SEASONS**

The Fall season usually begins about the 15th of September or at the time when we have had sufficient rain to put the ground in the proper condition for digging. The Fall season usually closes November 15th.

The Spring season begins just as soon as all of the frost is out of the ground — usually around April 1st. By May 15th, the stock is normally too far out in growth to transplant successfully.

### **PRICES**

The prices in this catalog are limited to the Fall of '50 and the Spring of '51. This printing supersedes all previous lists and all PRICES ARE

SUBJECT TO CHANGE WITHOUT NOTICE.

### **RATES**

#### **B & B Stock**

5 of the same variety and size at the 10 rate  
25 of the same variety and size at the 100 rate

#### **Clean Root Stock**

Transplants sold in multiples of 25 only  
25 of the same variety and size at the 100 rate  
250 of the same variety and size at the 1000 rate  
Seedlings sold in multiples of 50 only  
Lilac and Flowering Crabs sold in multiples of 10 only

### **LOCATION**

We are situated 45 miles northwest of Chicago, on Highway No. 31, just north of the intersection with No. 72. Visitors are always welcome.

### **PERSONAL SELECTION**

Prices in this catalog are for first quality stock, fully up to size, and as represented. Customers who wish to make personal selection and tag trees in the nursery may do so at 25% extra charge.

### **SPECIAL NOTICE**

Correspondents are requested to use their printed letterheads. This catalog is for the trade only and in justice to our trade customers, we will make every effort to limit the distribution of trade prices to those we know are entitled to receive them.

**All orders are accepted on the condition that they shall be void should any injury befall the stock from causes over which we have no control. THESE PRICES DO NOT INCLUDE ANY GUARANTEE WHATSOEVER AS TO GROWTH.**

The quantity production of high quality, lining-out evergreens has long been a specialty at Hill's. Emphasis has always been placed upon quality methods of production. New means are continually sought by which it is possible to offer at a reasonable price, material which will turn over quickly for you and return the greatest margin of profit in the least number of years. For this reason, we do not offer many rooted cuttings nor pot grown plants . . . all transplants are from open field beds or field rows. There is no substitute for age and northern growing conditions.

# PRE-STA

65

Our grafts are ready for field planting and cultivation when shipped — no grafts broken in shipping or cultivation — no expensive staking or tying necessary.

Before your graft is shipped from Hill's, a light but strong stake is inserted into each pot beside the graft. The rubber strip is replaced with grafting tape that encircles both the stake and the graft, and the tip of each graft is secured to the stake with a patent tie. The pot itself is then replaced with a light-weight, moisture-proof wrapping to save shipping expense and to insure that the graft reaches you in the best possible condition.

These French Lilacs are all two year field grafts — cut back at the end of the first year, and developed into lightly-branched, quick maturing, lining-out plants. This collection has been carefully selected from among the oldest and newest varieties to give you a comprehensive range of colors in plants known to grow well under most conditions.

### **Note**

To enable us to better serve your needs, we request that you provide us with the opportunity to re-serve your Fall and Spring needs at the earliest possible date. As the demand for nursery stock is in direct proportion to nationwide dwelling con-

struction reports, it is believed that this coming year will prove even more demanding upon Evergreen supplies than the previous year. Allow us to provide the very best in selection and service by placing your order now.

# HILL'S 1950 Illustrated Evergreen Brochure

A new 48 page descriptive booklet with 62 full color illustrations and complete descriptions of each variety as well as cultural landscape suggestions.

The extremely high cost of color printing of this type precludes our offering this booklet gratis. However, we will mail you, postpaid, as many copies as you wish for \$1.00 each.
